MEMORANDUM FOR: Director of Scientific Intelligence
SUBJECT: Career Service Designation

I should like to request that appropriate action be taken to change my career service from M (Management) to DDS&T. It should be noted that last year a decision was made in M&S that all supergrades, including physicians, would be brought into the M (Management) career service. Accordingly, it is my understanding that as of the date of that decision I was no longer a member of the medical career service.
